ABOUT ME

Passionate information technology student eager to develop practical skills through internships in the IT industry. Possess a strong understanding of programming, web development. Experienced in creating web applications . Excited to apply knowledge in real-world situations, expand professional networks, and launch a successful career in the IT industry.

EDUCATION

- **Raharja University** Informatics Engineering Major - Software Engineering (GPA: 3.6/4.0)
  August 2022 - Present

Skills

- **Programming Languages:** JavaScript, Java, Typescript
- **Frameworks & Libraries:** React.js, Vue.js, Tailwind, Node.js, Express.js, Next.js, Remix.js, Nest.js
- **Database:** MySQL, MongoDB, PostgresSQL
- **VCS:** Git & GitHub

PROJECTS

Foundation

- Improved website performance and user experience through modular coding practices.
- Developed scalable front-end components with React.js, enhancing code reusability and maintainability.

Quiz-App

- Created a responsive, interactive quiz platform with real-time scoring and a user-friendly interface.
- Utilized React.js for front-end development, implementing reusable components to streamline development.

MyBook

- Developed a simple application for managing books by categorizing them into "Read" and "Unread" shelves. Implemented local storage to persist user data across sessions

Contact App

- A simple full-stack web application to manage contact lists with CRUD functionality. Built using EJS for the frontend, and Express.js with MongoDB for the backend.

EXPREIENCE

Full Stack Developer Intern - PT. Vanz Inovatif Teknologi | January 2025 – July 2025

- Built and integrated frontend (Web & CMS) with RESTful backend services.
- Developed responsive UI and dynamic components based on design specs.
- Designed CMS with full CRUD and clean architecture.
- Created modular backend APIs to support business logic.
- Collaborated with cross-functional teams to ensure quality and efficiency.
